-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-11, drawn to a physical management method, classified in class 705, subclass 28.
  - II. Claims 12-20, drawn to a cargo insurance information method, classified in class 705, subclass 402.
  - III. Claims 21-27, drawn to a an automatic drafting method of a draft f a bill of lading, classified in class 705, subclass 34.
2. Inventions I, II and III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because group I is drawn to a concentrated physical distribution management method comprising a shipping instruction processing step, a physical distribution expense calculation processing step, and a cargo tracking processing step, group II is drawn to a cargo insurance information making method comprising the steps of calculating insurance to cargo, selecting an insurance trader, and making cargo insurance information being electronic data, and group III drawn to an automatic drafting method of drafting a bill of lading comprising the steps of performing pre-booking of a specific outgoing vessel, issuing a booking instruction of the

Art Unit: 3627

outgoing vessel, making new draft information for the bill of lading, transmitting the new draft information for the bill of lading.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mr. Ronald P. Kananen on 6/4/04 to request an oral election to the above restriction requirement, but did not result in an election being made because the applicant's representative has not returned the phone call made by the examiner.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ronald Laneau whose telephone number is (703) 305-3973. The examiner can normally be reached on Mon-Fri from 8:30am - 6:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Olszewski can be reached on (703) 308-5183. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
